

It was with a great deal of sadness this afternoon that I learned a former curling club member, a good friend, a real nice person and true gentleman passed away rather unexpected, at the age of 72, this past Tuesday. Many of you will not remember Ross Law from his curling days but Ross was probably one of my first skips when I got back into curling in the mid 80's. I had played hockey against Ross for a few years but we both turned to curling and teamed up with Gary Lamb and Ted Schlitz to have some great times in the CYOR league. After he quit curling, due to knee problems, he spent his summers at The Highlands and we crossed paths many times and he always had that pleasant air about him, although I now understand lately he had been in much pain. Cremation has taken place already but a Memorial will be held in Ross's memory on Dec. 3rd from 1:00 to 3:00 PM at Skwarchuk's Funeral Home. Rest in peace Ross, you will not be forgotten.....Congratulations to Bill Bennett and his team of; Peter Davy, Marty Ostien and Bob Cairns who captured the 'A' side in the Zone 10 Masters event last weekend in Parry Sound. They will now take part in the Regional's set for K-W Granite from Dec. 10th to 12th.....For all those curlers out there who have a business they would like to make known why not take advantage of our 'Support Members' website page, there is no charge, just send any details to me and the information will be inserted. And for any members who are looking for a service or product, check out the website, it just might be there on the Support members page.....Also don't forget to support the fundraising candle sale now being held, information is on the website and at the club.....While the club has many great volunteers, too many to mention in one edition of this publication, I would like to take the opportunity to recognize one who can be seen around the club almost anytime on any given Sunday. Peter Fudge puts in numerous hours promoting the Junior curling program, taking courses, instructing curlers and coaching teams, all this in a very non-assuming manner. Thanks for all your dedication and hard work Peter, we can see it starting to pay off as the numbers are climbing....By the way Peter and his young Bantam boys team are off this weekend to curl in the Junior Men's Zones at Stroud, They will be facing some stiff competition, but like they always are, they will be great ambassadors for the club, in their own special way.....Until next time, enjoy the great weather we are having, because it will end soon.
