

The last 7 to 10 days have been pretty hectic around the club, but the end is in sight and the ice crew has the rink side of the club looking pretty good, especially if you are a Green Bay Packers fan. The first rocks should be thrown by Saturday night and then it's full steam ahead. A lot of work put in by, unfortunately, too few people. A big thanks to those who did come out and help with the painting and installation of lines.....The main reason for this publication is to let people know what is going on, especially those who curl on some nights and do not know what is happening, or in many instances do not even know those who curl, other nights. Unfortunately some of the news is not always good. With that being said it is always unpleasant to have to pass along information of a death, especially to a healthy vibrant young person. This past week not only did the York Regional Police force lose such a person by also the BCC suffered the same lose with the passing of Superintendent Mark Grant. For those of you who did not know, Mark was a member of Frank Badowich's choose your own team and will be missed on Monday nights around the club.....Also for those of you who did not know, Don Lynn has gone through open heart surgery about 2 weeks ago and is still in SRHC, and would love visitors. Don was recuperating very well and had expected to be home by now but suffered a setback and will have an extended stay in hospital. To Don, Jennifer, Sarah and Adam our thoughts are with you.....LADIES, don't forget, Saturday night (the 5th) is for you and big things are planned at the club. Bring all your friends and neighbors out for the ["No Men Allowed - Jockey Party"](#) and FREE CURLING CLINIC. There will be food, booze and whatever else makes you happy.....I am not going to beat around the bush, **the curling club needs curlers**, this year many new programs are being put into place to attract new curlers, find out what they are and try to promote them to, again, your neighbors and friends, They are on the website and in the Town's recreation information bulletins.....Most leagues could also use curlers, as they have open spots, if you are only curling one night a week here's your chance to get, for only a few dollars more, another game in each week.....Until next time, the season is just starting, make sure you get stretched out before you start throwing and sweeping, we cannot afford to lose curlers to a muscle pull.
